## Grace and Jason Mount

Both Jason Mount and his wife, Grace Huxtable-Mount, grew up as part of large families in small Florida communities where higher education was like a dream that seemed almost out of reach. Today, as partners in the Huxtable Education Group, Grace and Jason are reaching out to help children see and attain academic excellence.

“A college education was a huge accomplishment in my family,” says Grace, who earned her Masters in Elementary Education, with a Literacy Specialization, at the University of Florida and is nearing com-

pletion of her PhD in Educational Leadership. An elementary school teacher in Duval County prior to establishing the Huxtable Education Group, Grace has partnered with her husband, Jason Mount, a former BellSouth 2<sup>nd</sup> Level Manager holding a Bachelors Degree from the University of Florida and a MBA from Webster University, to provide inner-city students with free tutoring in reading and math.

During the past three years, with headquarters conveniently located at Beaver Street Enterprise Center, Huxtable Educa-

tion Group has utilized the federally mandated Supplemental Educational Services program to open the door to academic success for hundreds of students across the State of Florida. Now, having established a firm foothold in education by serving students K-8<sup>th</sup> grade through comprehensive, research based curriculum taught by highly qualified tutors, Huxtable Education Group is expanding its horizons, with Grace heading up a new child development facility that will provide a healthy jump-start for children ages 6 weeks through 5 years old.

“From 6:30 a.m. to 6:30 p.m., The Learning Experience Child Development Center at 8411 Southside Blvd. will provide a high quality educational experience, along with dynamic enrichment programs, computer time and our Early Reading Program, Fun with Phonics, all at no additional cost to parents,” said Grace Huxtable-Mount, noting that The Learning Experience (TLE) franchise is one of the fastest growing child care centers in the nation with hers being the first one in Florida. With a grand opening slated for June 2009, The Learning Experience Child Development

Payroll:	1.2M

Center is dedicated to encouraging a love of learning in a fun-filled environment.

And, speaking of environment, Jason Mount and Grace Huxtable-Mount credit the nurturing business incubator environment at Beaver Street Enterprise Center with providing the resources, tools, partners, people and encouragement that have enabled their organization to grow “in bigger ways than we ever imagined possible.”

“The children of our community are the real beneficiaries of Huxtable Education Group’s success story,” said Jackie Perry, Beaver Street’s Executive Director. “It has been and will continue to be an honor to be involved with Jason and Grace in this inspirational learning experience.”
